

Western Pacific Subsection Water & Wastewater Conference Guam
August 31 & September 1-2, 2022
Dusit Thani Guam Resort

Call for Abstracts

The **Western Pacific Subsection of the AWWA-HI** is soliciting individuals interested in presenting at the **2022 Western Pacific Water & Wastewater Conference Guam** to submit an abstract describing the subject matter for consideration and evaluation of the proposed topic.

The theme of the conference is ***“Investing in Our Islands’ Water”***.

This year we are planning to have a hybrid (in-person and virtual) conference. We are interested in addressing the impacts of current investments, including future investments through the American Rescue Plan and the US Infrastructure Investment and Jobs Act and what positive impacts that has or will have on the various sectors of the water and wastewater industry in our islands.

The conference will be held in conjunction with the Water and Environmental Research Institute of the Western Pacific’s (WERI) Advisory Council Meeting, which will be held on September 1 and this call for abstracts will be for presentations made on August 31st and September 2nd of the conference.

All interested parties are encouraged to submit abstracts which may be of benefit to the target audience of water and wastewater system operators, managers, engineers, scientists, regulatory and industry professionals in the region.

Presentations will follow a 30-minute format, with 20-25 minutes for presentations and 5-10 minutes for questions/discussion. Selection for inclusion in the conference program will be based on regional participation, technical content and quality.

Abstracts due:	July 8, 2022
Presenters notified by:	July 22, 2022
Presentations due by:	August 19, 2022

Speakers will be responsible for their own transportation, accommodations; however, conference registration fees will be waived on the day of the presentation.

Please email your abstract and/or questions to the Planning Committee members Nick Manley at nicholas.manley@hdrinc.com and John Riegel at jriegel@brwncald.com.
